DATE: November 1, 2011

Monthly General Fund Receipts through October 31, 2011

The spreadsheet at the end of this document presents FY 2012 General Fund total net receipts with comparable figures for actual FY 2011. The figures can be compared to the FY 2012 estimate of \$5.895 billion set by the Revenue Estimating Conference (REC) on October 14, 2011. The FY 2012 estimate is an increase of \$81.8 million (1.4%) compared to actual FY 2011 total net receipts (excludes transfers). The next REC meeting has not been scheduled but will be held in December.

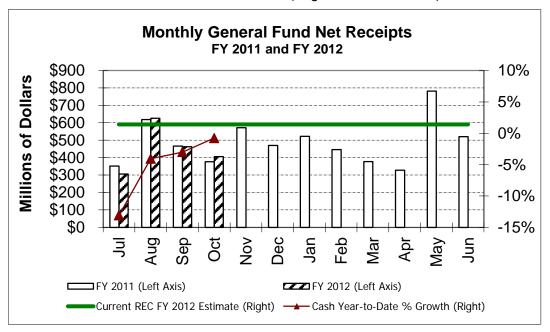

FY 2012 Monthly Estimate Comparison - Dollars in Millions														
	Most Recent REC Projected Growth for the Year, Excluding Transfers = + 1.41%

FY 2012 Compared to FY 2011

Year-to-date FY 2012 total net receipts (excluding transfers) decreased \$14.0 million (-0.8%) compared to FY 2011. FY 2012 net General Fund revenues will be negatively impacted by a law change that requires the first \$106.0 million of cigarette and tobacco tax revenue to be deposited in the Health Care Trust Fund (HCTF). Without this deposit issue, net General Fund receipts would be up 3.4% for the fiscal year. Major revenue sources and their contribution to the FY 2012 change include:

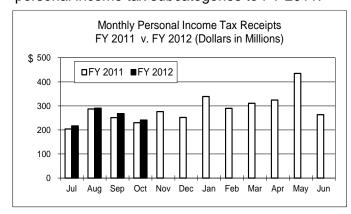

- Personal income tax (positive \$43.8 million, 4.5%)
- Sales/use tax (positive \$25.6 million, 3.5%)
- Corporate tax (positive \$28.9 million, 27.2%)

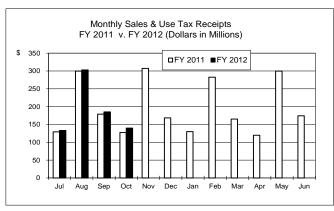

- Other taxes (negative \$76.2 million, 45.7%)
- Other receipts (positive \$5.6 million, 6.9%)
- Tax refunds not including school infrastructure refunds (negative \$15.8 million)
- School infrastructure sales/use tax refunds (negative \$25.9 million)

Personal Income Tax revenue received in October totaled \$241.0 million, an increase of \$11.2 million (4.9%) compared to October 2010.

The FY 2012 REC income tax estimate of \$3.590 billion represents a projected increase of 3.7% compared to actual FY 2011. Through October, gross income tax receipts increased \$43.8 million (4.5%). By subcategory, withholding payments increased by \$22.7 million (2.7%), estimate payments increased \$9.7 million (9.1%), and payments with returns increased by \$11.3 million (36.8%). The following chart compares FY 2012 monthly income tax receipts for the three personal income tax subcategories to FY 2011.

Sales/Use Tax receipts received in October totaled \$139.6 million, an increase of \$12.5 million (9.8%) compared to October 2010.

The REC estimate for FY 2012 sales/use tax receipts is \$2.433 billion, an increase of 2.2% compared to actual FY 2011. Through October, sales/use tax receipts increased 3.5%. The preceding graph compares FY 2012 monthly sales/use tax receipts with FY 2011.

Corporate Tax receipts received in October totaled \$48.7 million, an increase of \$23.3 million (91.7%) compared to October 2010.

The REC estimate for FY 2012 corporate tax revenue is \$432.7 million, an increase of 9.7% compared to actual FY 2011. Through October, corporate income tax receipts increased 27.2%.

Other tax receipts received in October totaled \$9.5 million, a decrease of \$15.5 million (- 62.0%) compared to October 2010. Other tax receipts will be negatively impacted in FY 2012 due to a 2011 law change that altered the destination of \$106.0 million in cigarette/tobacco tax revenue. This change will decrease State General Fund revenue and increase revenue to the Heath Care Trust Fund.

The REC estimate for FY 2012 other tax revenue is \$338.6 million, a decrease of 23.5% compared to actual FY 2011. Through October, other tax receipts have decreased 45.7%.

Other receipts (nontax receipts) received in October totaled \$27.6 million, an increase of \$1.1 million (4.2%) compared to October 2010.

The REC estimate for FY 2012 other receipts revenue is \$342.6 million, an increase of 1.3% compared to actual FY 2011. Through October, other receipts increased 6.9%.

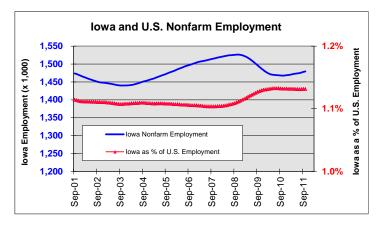

Tax Refunds issued in October totaled \$28.6 million, an increase of \$1.3 million (4.8%) compared to October 2010. In addition, school infrastructure refunds totaled \$32.0 million for the month, an increase of \$2.0 million compared to October 2010.

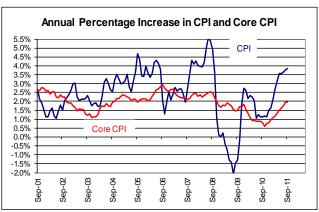

Status of the Economy

lowa nonfarm employment was reported at 1,488,600 for the month of September (not seasonally adjusted), 15,100 higher (1.0%) than September 2010.

lowa's 12-month average employment is presented as the blue line on the following graph. lowa's average nonfarm employment peaked in October 2008 at 1,526,400, and was 47,700 above the peak prior to the previous recession (January 2001). The current 12-month average reading is now 1,479,400, resulting in an annual average lowa nonfarm employment level 47,000 below the October 2008 peak but 600 above the January 2001 peak.

The employment graph also presents lowa nonfarm employment as a percent of U.S. nonfarm employment. Iowa's share of U.S. nonfarm employment decreased noticeably from 1999 through 2002, decreased at a much slower pace from 2002 through 2007, and increased from January 2008 through June 2010. Since that time, Iowa's percent of U.S. employment has declined slightly.

The Consumer Price Index (CPI-U) through September 2011 was 226.9 (1983/84=100). Consumer prices increased 0.2% in September (not seasonally adjusted) and the annual rate of inflation stands at 3.9%, the highest annual rate since August 2008 (4.9%).

Core CPI, an inflation measure excluding food and energy expenditures, increased 0.2% in September and totals 2.0% year-over-year. The core rate of inflation bottomed at 0.6% in October 2010 and has increased every month since. For the two components excluded from the core rate, energy prices are up 19.3% year-over-year while food prices are up 4.5%.

Information related to State General Fund receipts is available on the Fiscal Services Division's web site at: http://www.legis.state.ia.us/receipts/daily.html
